lovely German city.
Convention Center in this
Congress is the Hamburg
President, Dr Georg Bayer.
ICOI's incoming President,
mens for this Congress are
DGOI. The Scientific Chair-
German Member Society
this year, co-hosted by ICOI's
World Congress in Europe
ICOI World Congress XXVII Hamburg                                         26–28 August 2010

Advances and Innovations in Oral Implantology
at the 27th ICOI World Congress in Hamburg

Leading international specialists will speak about implant dentistry at this DGOI co-hosted event.

The mission of ICOI is to serve the needs of all of
our members, including each segment of the dental implant team, and to pro-
vide them with high quality education
to better serve their patients. Hence,
the mission of the Hamburg World
Congress is to provide the most cutting
edge information that will enable you
to deal with the challenges that prac-
titioners of implantology face today.

Objectives & Mission Statement
Upon completion of this congress
attendees will be able to: Understand
digital treatment planning
for proper implant place-
mant; Review implant
complications and their
management; Develop tech-
niques for tissue engineer-
ing and accelerated bone
regeneration; Review new
innovations in implant
therapy; Understand
cepts for predictable im-
plant esthetics.

The 27th ICOI World Congress will be an excellent opportunity to see
the most up-to-date technologies in the field of dental medicine.

68 during the ICOI Congress!
(100 Applications are available / first
come-first serve)
Issues such as digital planning for proper implant placement, implant complications and their management, tissue engineering for predictability bone regeneration, new innovations in implant therapy and predictable implant esthetics, etc. Concepts for success will be presented by leading clinicians and members of our scientific community. All presenters will illustrate their views in these assigned subjects and then, hopefully, support them with appropriate evidence. We can assure you will enjoy this meeting. We look forward to seeing you in Hamburg.

Dr Hom-Lay Wang and Dr Georg Bayer. Congress Chairman.

Forum for “Young Implantologists”

There will also be a forum for “Young Implantologists” with a two-hour slot on the main podium. This popular feature provides up and coming speakers the opportunity to present case studies to the entire Congress; it will take place on Saturday morning.

Poster Presentation

A significant number of international clinicians and academicians will take part in the Table Clinic and Poster Presentation competition which will take place during the Welcome Reception on Thursday evening, 26 August. Posters will remain in place throughout the Congress.

The ICOI Scientific Program Committee will consider the following categories for Table Top Clinic and Poster Presentations:

- Basic science and/or clinical research
- Clinical applications, techniques or tips
- Laboratory applications: techniques or tips
- Those interested in presenting during this portion of the program should email requests to Dr Art Schlett at drart@perspectives.com.

Auxiliary Program

ICOI’s Member Society, the Association of Dental Implant Auxiliaries (ADIA), will hold a full-day course for staff members on Friday, 27 August. The ADIA Symposium is aimed at providing information essential to dental assistants working with implant patients. The program will evaluate the interaction of implant patients and team members and review methods the team can apply to help guide patients through implant therapy and its various components. The program will address all aspects of implantology including case presentation, answers to commonly asked questions, treatment planning, surgical, prosthetic and maintenance procedures. The Friday Auxiliary session for the ADIA Certification Program Awards Ceremony, honoring ICOI and DGOI advanced credentialed members will precede the Friday dinner party.

Exhibiting

Exhibition will introduce innovative products in implantology. Companies interested in exhibiting at this Congress should visit ICOI’s web site www.icoi.org or the Congress site www.worldcongress2010.com.

Hamburg—the Gateway to the World

The second largest port in Germany and in Europe, Hamburg is often called the Gateway to the World. This cosmopolitan city is located on the Elbe River which feeds into the North Sea. While parts of the city overlook Alster Lake with its promenades, elegant shops, hotels and restaurants, Hamburg also boasts a large canal system increasing its commercial reach and adding to the European charm. A cultural center, Hamburg boasts 50 art museums, several opera companies and musical theaters and is home to the informally known St. Pauli Entertainment region.
